## WORK EXPERIENCE

- 2018 – Present**     **AceOne Technologies** – Web Development Intern  
I developed web applications utilizing popular PHP frameworks like Laravel and CodeIgniter. My projects included building a time tracking web application, a course purchasing website, and a REST API for a mobile application.
- 2018 – 2018**     **Arkansas State University** - Computer Science Tutor  
Tutored students in the fundamental computer science courses. Topics included Structured Programming, Object-Oriented Programming, and Algorithms and Advanced Data Structures. All courses used C++.
- 2017 – 2018**     **Arkansas State University** - Desk Assistant  
Operated the front desk of a freshman residence hall. Duties included monitoring the activity in the lobby, checking in resident's guests, and directing visitors/residents to the appropriate person/place for assistance.
- 2015 – 2017**     **Harps Foods** - Deli Clerk/Baker  
Assisted customers with their orders, provided quality customer service, tracked inventory, and created a weekly production plan.

## EDUCATION

- 2015 – Present**     **Arkansas State University** - Computer Science (BS)  
Jonesboro, AR
- 2015**     **Mountain Home High School**  
Mountain Home, AR

## SKILLS

- Development**     HTML5, CSS3, SASS, JavaScript, jQuery, PHP, Laravel, SQL, Git, C++
- Software**     Illustrator, Photoshop, After Effects, Premiere Pro, Microsoft Office

## AWARDS

- 2<sup>nd</sup> Place Web Design** – PBL National Leadership Conference 2018  
Created a website for an imaginary non-profit, charitable clothing organization. My duties were to help design the layout, create the logo, and implement the responsive design using HTML, CSS, and JavaScript.
